The dispenser of cleaning cloth, moistened at the moment, for car interior

**PannoSelf  
model G4**

**PannoSelf  
model G45**

## How does it work

Press the corresponding button of the chosen product and see its price. Deposit coins or token and press the button of the product: the machine dispenses the cloth instantly sprayed on by the cleaning product chosen.

### Paper roll

### Bag-in-box 5lt

### Bottles 125ml

- High profits
- Just what customer needs
- Very low costs

- No water and plastics waste
- Nighttime dome's lightening
- Minimum power consumption

- Maintenance free
- Easy to install and use
- Durable and reliable

## The cloth

It is made in **high quality** non-woven fabric, 38 x 24 centimeters, rolls of 800 perforated pieces. No tearing and no stains. It is excellent to dry and it is **reusable**.

## The detergents sprayed on

Specially formulated for this cloth, the detergents are produced in summertime version and wintertime version and are packaged in the **modern, practical and environmentally friendly bag-in-box** to preserve for long time the fragrance and the technical features because it prevents air contact.

Summertime set for temperatures from +5°C. to +45°C.
